

2024

Inspire UX journey

- ✓ Respond to long-standing feedback from partners and customers by elevating our UI/UX to meet market expectations
- ✓ Develop and promote a more compelling sales story
- ✓ Enhance the initial impression of our platform to create an engaging “out-of-the-box” experience

Outcome #1

Enable a compelling sales narrative

Through an **easier go-to-market experience**, the inclusion of **emerging technologies**, providing a **clearer return on investment**.

Outcome #2

Empower customers to successfully market their learning programs using our platform

Through **modern, engaging** learning experiences.

Outcome #3

Enhance the usability of our product

Through **intuitive navigation** and **easier content discovery**.

Inspire UX initiative – Platform Experience

In 2024 we've done extensive uplift to the user experience, that vision continues

2024

- New theme (Inspire)
- Navigation information architecture
- Catalogue experience
- Workspaces
- Learning cards
- Library
- First cut of the Totara Design System
 - Consistent forms
 - Consistent typography
 - New components

Themes to carry through

- Totara Design System to be opened to partners/ app/
- Immersive learning experiences
- Mobile as a key experience
- Dashboards
 - Perform blocks (technology compatibility)
 - Insights on learning and development for users and managers
- Smarter recommendations, popular, trending, AI
- Folding Engage product into the core experience e.g. tying workspaces and courses/ programs
- Patterns and functionality alignment between app and web experience.
